

Project Engineer Job Posting

Project Engineer Regular Full-Time Opportunity Licensed Science Officer 4 \$58,445.74 – \$76,210.01 annually Out-of-Service Location is Negotiable

The Freshwater Fisheries Society of BC (FFSBC) is an independent, non-profit organization with a mandate to deliver a wide range of fisheries management services and programs focused on fish conservation and management, science and research, public education and the development and marketing of freshwater sport fishing in BC.

We are seeking an innovative, energetic and progressive Project Engineer to join our team. The incumbent will be responsible for providing a full range of engineering advice and expert consultative services in support of the Society's hatchery and fish culture facilities as well as a fish distribution center and numerous remote egg collection sites to ensure engineering initiatives are delivered effectively. In addition, the incumbent will provide consultative and advisory services to Ministry of Environment fisheries programs for fisheries and habitat improvement and related projects.

If you have a hands-on approach to engineering, are committed to providing service excellence, and are looking for a rewarding and challenging career opportunity where you can be part of an exciting operation, we would like to hear from you!

Qualifications: Graduation from a university, with a Bachelor of Applied Science or equivalent degree in civil or mechanical engineering. Eight or more years of experience in the practice of engineering. Demonstrated experience in fisheries and fish-culture related engineering is preferred. Registration as a professional engineer with the Association of Professional Engineers and Geoscientists of British Columbia is required. Equivalent combinations of experience, education and/or training may be considered. Lesser qualified candidates may be under-implemented. An eligibility list may be created.

To learn more about this exciting opportunity, please review the Job Description for a complete list of duties and qualifications, available via www.gofishbc.com/employment.htm. In your application, please ensure that you clearly indicate how you meet each of the education and experience requirements identified for this position. You may use mail, email or fax to submit your application.
